GENERAL

The new line of fittings for the Optimist. This product line is marketed under the name OPTIPARTS. OPTIPARTS has its own display, promotion material and leaflets. From cork to make the boom watertight to optimist life jackets are the contents of this extensive range of products which is exported to more than 22 countries. The names OPTIPARTS, OPTISPAR (for masts and booms) are registered trade marks.

OPTIMIST RACING MAST

The Optimist racing mast for the optimist is made from an alluminium tube with a very high tensile strength (7075 Aerospace specification alloy (U.T.S. 570 N/mm²), that has been exclusively produced for OPTISPAR. The OPTISPAR is delivered with a special top which allows the sail to slide of the mast without untying its lashings. Complete with halyard and special halyard hook-in block. Stainless halyard cleat and alluminium downhaul cleat. According to class specifications. Additional information upon request.

EX1000 Optimist racing mast complete.

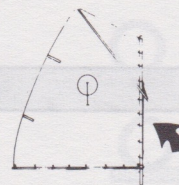

OPTISPAR

OPTIMIST STANDARD MAST

The standard optimist mast, tempered tube with halyard block and stainless halyard and downhaul cleat.

EX1010 Optimist standard mast.

OPTISPAR
