

OPTIMIST DAGGERBOARD BUNGY

Installation step by step:

1. Pass the shockcord through the thick blue tubing.
2. Pass the shockcord through the thin blue tubing.
3. Pass the shockcord again through the thick blue tubing.
4. Add a bowline knot to both sides of the black line to create two loops.
5. Pass the shockcord through one loop in the black line.
6. Pass the shockcord through the eyelet on the front end of the daggerboard case.
7. Tie the end of the shockcord to one hikingstrap.
8. Pull the black line through the space between the daggerboard case and the midship frame.
9. Pass the shockcord through the other loop in the black line and pass the shockcord for the second time through the eyelet on the front end of the daggerboard case.
10. Tie the end of the shockcord to the other hikingstrap.
